Constructing a New Agenda offers an overview of the myriad approaches and attitudes adopted by architects and architectural theorists during this era.

Constructing a New Agenda (□□)

What is new is the urgency of what can be described as a pro-practice movement as it appears in the late 1990s; in most cases, this is not a total disavowal of theory (thus the term “anti-theory” is not quite right), but rather a mandate to focus on the realities of architecture and building (hence “pro-practice”).
