The Economics Anti-textbook: A Critical Thinker's Guide To ...

The Economics Anti-Textbook is both an introduction to, and critique of the typical approaches to economics teaching, written by Roderick Hill and Tony Myatt in 2010. The main thrust of the authors' argument is that basic economics courses, being centered on models of perfect competition, are biased towards the support of free market or laissez-faire ideologies, and neglect to mention conflicting evidence or give sufficient coverage of alternative descriptive models.

The Economics Anti-Textbook - Wikipedia

The Economics Anti-Textbook's chapters parallel the major topics in the typical text, beginning with a boiled-down account of them before presenting an analysis and critique. Drawing on the work of leading economists, the Anti-Textbook lays bare the blind spots in the texts and their sins of omission and commission.

Reviews "What humankind needs second most (first is a cure for global warming), is a means of defusing the lethal ideological superstitions implanted in the educated masses by Samuelson/Mankiw type

The Economics Anti-Textbook: A Critical Thinker's Guide to ...

The Anti-Textbook argues that this is a myth—one that is not only dangerously misleading but also bland and boring. Challenging the mainstream textbooks' assumptions, arguments, models and evidence, this book puts the controversy and excitement back into economics to reveal a fascinating and a vibrant field of study—one which is more an 'art of persuasion' than it is a science.

The Economics Anti-Textbook - Fernwood Publishing

The economics anti-textbook

(PDF) The economics anti-textbook | Rodd Hill - Academia.edu

The Economics Anti-Textbook brilliantly takes apart the mainstream textbooks and their flawed arguments. It clearly and concisely debunks the mainstream myths contained in microeconomics textbooks. It is one of the best economics book I have ever read and essential for any economics student.

The Economics Anti-Textbook - Whistling In The Wind

economics and economic textbooks. These value judgements reflect a social and political philosophy and can be called an ideology or world-view. It is one that textbook writers are implicitly attempting to persuade the reader to accept. The Anti-Textbook makes this ideology, and the value-judgements behind it, explicit.

About the authors

'The Economics Anti-Textbook' is not, as one might infer initially from its title, merely an alternative perspective to that of the mainstream economics that is the basis of the vast majority of school and undergraduate-level economics textbooks.
